- Line spacing: 1.5 or double-spaced preferred
- Number all pages sequentially
- Number all paragraphs sequentially within each section (as formatted in these documents)

Applications in This Portfolio

#	File	Title	Priority
1	`Patent_1_Multimodal_Data_Collection.md`	Multimodal Data Collection System with Quality-Controlled Narrative Elicitation and Psychological Profiling for AI Avatar Construction	Very High
2	`Patent_2_Advisory_Avatar.md`	Advisory Response Generation System Using Personal Knowledge Graph and Psychological Profile with Attribution	Very High
3	`Patent_3_Depth_Scored_Conversation.md`	Real-Time Depth-Scored Conversational Elicitation System with Parallel LLM Processing and Adaptive Termination	High
4	`Patent_4_Access_Control.md`	Conditional Digital Legacy Access Control with Dual-Threshold Inactivity Detection and AI Avatar Activation	High
5	`Patent_5_Psychological_Assessment.md`	Timed Psychological Assessment System Producing Continuous Personality Vectors for AI Avatar Decision Simulation	High

Filing Order Recommendation

1. File Patents #1 and #2 first (highest commercial value, establish priority for planned features)
2. File Patents #3 and #4 next (fully implemented, strongest written description support)
3. File Patent #5 last (most dependent on #1, can reference #1's filing date)

Critical Deadlines

- **12 months from filing**: Must file corresponding non-provisional applications or the provisional applications expire
- **Paris Convention**: Filing date of provisional establishes priority for international filings
